REMARKS UPON BEEF CATTLE. - Our report

REMARES UPON BREF CATTLE.— Our report shows the decrease of receipts of beeves for the week, in the whole city, upon the weekly average at 137 head, and 3,165 decrease upon last week. The number at market to-day, 1,251 head, which is 927 decrease on the average, which was 2,237 for each market day last year, and 1,903 increases upon the number in market last Wednesday.

There were 200 left over last week, so that the actual decrease on the number sold is 1,703. It is not likely any will be left in the pen to-day.

The great and sudden change in the prices to-day will surprise many. Last week it was impossible to effect a clearance, even at the reduced rates at which cattle were offered, and this week, notwithstanding the balance of last week's stock, the supply was so limited that the best cuttle were the supply was so limited that the best cattle were of lions crouchant—a couple of east huntingpieces, intended as panels for park fence—vases of

WEDNESDAY, - OCTOBER 10, 1855.

Anti-slavery men in the North are crafty but not over wise. When the Missouri compro mise was repealed, they raised the cry for its res toration. This would seem to be the honest and discreet course. If a great wrong had been perpetrated, it was proper to right it. All over the free States an outcry was raised of a breach of faith by the Nebraska bill. The people were snmmoned to the polls to record their verdict of condemnation upon the traitors who had done an act of bad faith, The Missouri restriction was to be is of no value to the Abolitionists.

Instead of the anti-Nebraska clamor, we have served the purpose of enlisting recruits, and the cars, as was the case last year. point so much insisted upon is dropped. The Missouri restriction won't go; the object now is the old Abolition one, of no more slave States or slave territory. The chief agitators North had no favor for the Missouri restriction-hated it whilst it existed, and only pretended to deprecate its repeal for a purpose. That purpose has been answered, and opposition to the repeal of the restric- and figures; one, especially, intended to represent tion has faded away. It served, like scaffolding, as a means of build up the Abolition party, and two or four-footed animal, beast, bird or reptile. it may be dispensed with.

In the late conventions of the Republican party, made up of Abolitionists, Know-Nothings, etc., not a word is said about restoring the Missonri compro mise. The issue is ignored, "pretermitted," and the old ground of no more slave territory proclaimed as the paramount object. It is therefore seen that the anti-Nebraska clamor was but a ruse-It was only a temporary point, made to gain support to the Abolition cause. Some Southern demagogues aided the enemies of the Sonth by denouncing the Nebraska act. The Abolitionists the noise and confusion the fog has cleared away and the result is just the same old issue that the Abolitionists have proposed all the time.

The people of the free States who have been deladed by the howl over the repeal of the Missouri restriction, and joined the crowd, find a feast prepared for them they were not invited to, and an object proposed they did not bargain for. They will leave the fonl crowd into which they were

The elections in Ohio, Indiana, and Penn sylvania were all contests between Democrats on the one side and Abolitionists on the other. The Kuow-Nothings have no hand in the contest, except as allied with Abolitionists. In Ohio, a few national men of the self-styled American party gathered themselves together and put Trimble in nomination for the office of Governor. The design was to beat Chase, who was put in nomination by the combined forces of Abolitionists and Know-Nothings. We hold these few Know-Nothings as at least slightly national, for although they resolve and preach Freesoilism, they are not quite ready to swallow the whole nigger by voting for Chase. They did not venture to nominate any of the rest of the ticket, leaving all the Republican

The Chicago Democrat, a leading Democratic and anti-American newspaper at Chicago, Ills., says: "The same Democratic principles that make us detes slavery, make us anxious for a healthy foreign immi-gration, as the best means of getting rid of it." And yet many Southern men still lean upon that party for safety to Southern lustitutions and the preservation of the purity of republican principles.

Louvelle Journal.

It was but a few weeks ago that the editor of the Journal made a quotation from the Madison Conrier, calling it an old line Democratic paper although it is notoriously a chief organ of the corrupt combination in Indiana against the old line Democrats.

This is the sort of information the readers of the Journal get from that sheet.

The minor characters were well sustained, proving that the company is a good one. But the great beanty lies in the exquisite readings of Mr. B. and Miss R. More perfect readers we don't think we ever saw; we are confident we have very seldom if ever seen comedy rendered more genteelly han they render it. HOBRIBLE MURDER AND SUICIDE—A Noble Dog -A FIENDISH MAN.—We record this morning one of the most frightful instances of human depravity that it has ever been our misfortune to learn of. The circumstances, which are briefly these, are shocking beyond parallel:

A German shoemaker, named William Ebberling, living in this city, on Fourteenth near Madison street, has for a long time led an unhappy life with his wife. Their quarrels and dissensions have frequently disturbed the peace of the neighborhood. He has on more than one occasion brutally beaten and maltreated her, and her life was one of drudgery and hardship. On Thursday afternoon drudgery and hardship. On Thursday afternoon last, about three o'clock, he was seated on his bench, working at his trade, when a dispute arose between them, and he made a sudden spring upon her, catching her by the throat, and inflicting five wounds upon her with a sharp-pointed shoe knife, which he had in his hand at the time, any one of which was sufficient to have cansed death. She is not dead yet, but the physicians in attendance pro-nounce her recovery impossible. He then field from the honse, followed by a large Newfoundland dog belonging to him, and proceeded to the river and jnmped in for the purpose of drowning himself. He was dragged out, however, by the dog, before he had accomplished his purpose. He then caught the dog, and with the same knife with which he had stabbed his wife, and which he had never let go, deliberately cut its throat, and again jumped into the river, and succeeded in accomplishing what the more noble brute had prevented him

from doing at first.

The murderer is a young man, about thirty years of age. His body has been recovered, and the ner called to hold an inquest. St. Louis Democrat, 6th.

We copy the following from the Cincinnati Commercial of the 9th inst. It gives the result of the shooting, and the decision of the Judge: Great Shooting Match Decided.

Mr. DUNCAN THE VICTOR. The great shooting match for ten thousand dol-lars a side, between Mr. King, of Georgia, and Mr. Duucan, of Louisville, was decided yesterday af-ternoon, Mr. Duncan winning the match by one ternoon, Mr. Duncan winning the diseast con-bird. This has been, probably, the closest contest in the world, in the way of pigeon shooting where so great a number of birds have been shot at. Below we give a summary, which has been

politely farnished us by the judges:

Small rose-buds and leaves of brilliants and emerads when placed three on each side of the skirt, gathering the flounces en tablier, have a brilliant effect.— Among the most beantiful ornaments I have seen, of this kind, are six bounets of violets in gold and enamel, (at the shop An Negre, 19 Boulevard St. Dennis,) destined to decorate point d'Angle-

Why Females Suffer in Health.

### THE MARRIED WOMAN'S Private Medical Companion, BY DR. A. M. MAURICEAU,

PROFESSOR OF DISEASES OF WOMEN.

The Hundreth Edition (500,000) 18mo., pp. 250. A standard work of established reputation, found class ed in the catalogues of the great Trade Sales of New York, Philadelphia, and other citles, and sold by

the principal booksellers in the United States. Every woman can here discover, by comparing her ewn symptoms with those described, the nature, charac ter, and cause of her complaint, and be spared much anxiety and suffering, as well as the ampleasantness of making known to, or making inquiry of, a physician in respect to the numberless ailments to which she is sub-The wife about becoming a mother has often need of instruction and advice in respect to her situaion, which she will here find. This book tells her wha s the matter, and tells her what to do for it, in simple but chaste words, and such as she can understand. Those suffering from obstructions or irregularities pe

culiar to the female system, or from prolapsus uteri (falling of the womb,) or from fluor albus, will each find in its pages the means of prevention, ame Much distress of mind, as well as thousands pecuni-

arily, might be saved to every husband, if the simplest laws appertaining to the marriage state were better understood. A BLUK AND WHITE Double Quick Work Sky Light, just introduced by KOESBERG, enables him to take Daguerreotypes in a few seconds and for the greatly reduced price of 50 cents and nowards. It is also one of the best-lights everknown to produce correct likenesses, either of childrenor adults. The red hair and blue eyes have heretofore been difficult to take; but it is no longer any trouble to give them the real artistic disposition of lightand shade. The new Sky Light operates as welling cloudy as in clear weather, and gives the likeness the true tone of life. The public will therefore look to their own interest by calling on Roesberg before going to any other gallery, as there you can buy cheaper, receives a most sanguine of liss success.

to many localities of the United States; but wherever they prevail, North, South, East, or West, they all equally spring from the same mlasmal cause. The great variety of symptoms and forms of disease, is owing principally to difference in age, sex, constitution, and habits of the sufferer; but as the cause is the same, they will all equally yield to a remedy that is competent to overcome or remove that cause. By the laws of nature, every principle has its opposite, and for every disease, or cause of disease, there is a re-agent, or, in other words, a specific remedy. All Malaria, whether arising from Marshes, Stagnant Water, decomposition of annual and vegetable matter, or even newly cleared lands, is the same in character and effect; is a polson floating in the atmosphere, causing disease to all who breatheit. In accordance with those mualterable laws governing the unerring affinity subsisting between opposites, there is in the preparation before us, offered to the public,

THE NATURAL ANTIDOTE TO MAI :RIA, Which neutralizes the poison whenever it comes in contact with it, even in the open air, and when taken internally completely purifies the system sflected by it of its baneful influence, and thus restores and pre-The remedy is believed to be entirely new, and unknown to any but the proprietor, who distinctly claims the following extraordinary results from its use. In its operation upon the poison in the system, it will
immediately relieve all the distressing symptoms of hilious or ague diseases, and when the disease is cured, it
will entirely prevent the accession of GENERAL DEBILITY AND NIGHT SWEATS,

Which so often follow the administration of other medicines. The patient at once begins to recover appetite and strength, and continues to improve until restored to perfect health. And pursue their respective avocations in perfect safety from ague and bilious attacks during the sickly season, which is often to them the most valuable part of the year.

Since the introduction of the CURE in every part of the United States, its success has been so complete and unvarying as to have fully proved these assertions in two rise action of the tentroduction, they seemed incredible to many, even of the most candid minds, because all the resources of the most candid minds, because all the resources of the most candid minds, because all the resources of the most candid minds, because all the resources of the most candid minds, where seemed incredible to many, even of the most candid minds, where seemed in the subdue ague or bilious diseases; and what was still worse for ague sufferers, all their remedies or treatment, whether scientific or empirical, have been limited to the use of poisonous of destructive drugs, such as Arsenic, quiniue, Mercury, Saliciue, &c. The effects of these are sometimes worse than the disease they subdue; and when such remedies fail, or give only temporary rehef, their poisonous effects are superadded to the poor sufferer's first complaint.

On this account ague sufferers should be particularly careful about using any secret Fever and Ague remedies, notwithstanding the makers of them uniformly assert they may be taken with perfect safety, even when it is notoriously well known that their potency depends sorely upon destructive poison.

Now as a proof that the remedy is not only valuable on account of its power to cure diseases, but that it is also WORTHY OF PUBLIC CONFIDENCE,

BECAUSE OF ITS
SINGULAR AND ENTIRE HARMLESSNESS, The following certificate, from one of the most celebrated chemists in the United States, has been obtained and a copy of it is attached to every bottle: "I have made a chemical examination of Rhodes, Fever and Ague Cure, or Anudote to Malaria, and nave tested it for Arsenic, Mercury, Quinine, and Surychnine, but have not found a particle of either in it, nor have I found any suostance in its composition that would prove injurious to the constitution.

destined not only to relieve the human family from ma larious diseases, but to do an equally good work ty pre-venting the taking of other medicines which do harm. The entire absence of any baneful ingredient make this Remedy, not more valuable as a Cure, than it is a The entire sort more valuable as a Cure, than it is as a preventive. No class of disease is so easily managed as the one under consideration, if the medicine be taken in advance. This is owing to the diseases being produced by one and the same cause, and therefore all, both residents and travelers, should protect themselves by the timely use of this preventive, and not wait for the poi on already lurking in their venus to develope itself in aviolent attack. Take the Cure as a preventive, and odestroy the polson before it does harm.

Full directions and advice as to Diet and Habits of ife prepared by a distinguished Physician long resident in a Billious climate now accompany each bottle. It will often be found necessary to precede this medicine by a mild catharde or antibilious purgative. The very best thing for general use is a moderate dose of Castor Uil, the object of which is to cleanse the stomach and tree the bilitary passages. Remember that where this is necessary, or there is costiveness, it MCST BE TAERS, or the operation of the antidote will be seriously obstructed.

BALTIMORE & OHIO RAILROAD!

THIS GREAT WORK OF INTERnal improvement (379 miles from Wheeling to
Baitimore, and 408 to Washington,) was opened to the
Ohio river in January, 1838, and has now been fully
casted and approved, both as a freight and passenger
route. This road is located in a romantic country, is
solidly constructed, fully equipped, and carefully
managed, and is thus rendered an attractive as well as
a safe line for travelers. The late completion of the
Central Ohio Road, from Columbus to the Ohio river,
near Wheeling, adds greadly to the importance of this
route, offering, as it does, the most thorough Railroad
connection with the entire West. route, offering, as it does, the most thorough Railroad connection with the entire West.

\*\*THE ONLY THROUGH TICKETS RETWEEN LOUISVILLE AND THE NATIONAL METBOPOLIS are sold by this road, which runs direct to Washington without the delay of passing through Baltimore. It is also the only line by which baggage can be ehecked to Washington from the West. At Baltimore the road makes a direct connection with the Railroad to Philadelphia and New York, &c.

\*\*Lassengers going East from Lonisville, may proceed by steamboat to Cincinnati, and there take the Railroad to connect with this line, or may leave Louisville by the Jeffersonville Railroad direct.

The Mail Steamers leave Louisville daily for Cincinnati, where they arrive so as to connect with the cars of the Little Miami Railroad at A. M. (or 5 r. M., for Columbus, connecting there with the Central Obio Railroad, through Newark and Zanesville to Belleair, on the Obioposite Benwood station, 4 miles below W heeling. At this place the connection with the B. and O. Railroad is made direct. By express train of this route, the time from Cincinnati to Baltimor is less than 28 hours, and to Washington less than 28 follows: By mail steamers to Cincinnati, from Louisville to Washington, 318; to Baltimore 317: to Philadelphia, 318; and to New York, 328 50. C A U TION.

The traveling public are cantioned against the false statements made in the advertisements of the Little Miami Railroad Company. Among the most preasure to these may be named: that their line is the quickest to the East; that there is less certainty of connections by way of Clyde to Cleveland, and that there are less changes of cars on the Pittsburg Express by one route than the other. Forbearance has been exercised for weeks, on the promise that these misrepresentations should be corrected; but they are still reiterated daily inhand-bills and newspapers, making the caution necessary.
